| <b>Course Title</b>                  | <b>Student and Description</b>  | <b>lecture hours</b> | <b>lab hours</b> | <b>Total hours</b> | <b>civilian \$\$ contractors</b> | <b>military only \$\$</b> |
|--------------------------------------|---|----------------------|------------------|--------------------|----------------------------------|---------------------------|
| N1/JNP1                              | Initial Training for all officer aircrew students with Parasail (P'cola Only)                 | 16.5                 | 15.5             | 32                 | \$3,783                          | \$757                     |
| N1/JNP1                              | Initial Training for all officer aircrew students without Parasail (P'cola Only)              | 15.5                 | 12.5             | 28                 | \$3,157                          | \$631                     |
| N5/NP2                               | Initial training for all enlisted aircrew students and personnel on flight orders             | 9                    | 4                | 13                 | \$1,205                          | \$241                     |
| N2/NP7                               | Midshipmen (all categories)   | 7                    | 2                | 9                  | \$723                            | \$145                     |
| N2/NP8                               | VIPs, non-aviators, and non-military personnel selected for orientation flights               | 7                    | 2                | 9                  | \$723                            | \$145                     |
| N3/NP3                               | Selected Passenger (Ejection Seat Aircraft)   | 10.5                 | 5.5              | 16                 | \$1,567                          | \$313                     |
| N4/NP4                               | Project Specialist (Maritime Aircraft or Helicopter)  | 8.5                  | 4                | 12.5               | \$1,181                          | \$236                     |
| NP5                                  | CFET (Centrifuge-based Flight Environment Training) (Lemoore only)                            | 3.25                 | 2.25             | 5.5                | \$590                            | \$118                     |
| NP6                                  | Special Forces Physiology (HALO)(High Altitude Parachute)                                     | 6                    | 1                | 7                  | \$482                            | \$96                      |
| N6                                   | Advanced Continuation Training for Aircrew Selected for Tactical Jets                         | 9.5                  | 4                | 13.5               | \$1,229                          | \$246                     |
| N7                                   | Advanced Underwater Egress for HABD (Helicopter Aircrew Breathing Device)                     | 2                    | 3                | 5                  | \$675                            | \$135                     |
| N8                                   | Basic Aviation Water Survival Skills, Remedial and Adjunctive training                        | *                    | *                | *                  | Depends on content               |                           |
| N9                                   | Underwater Egress Training (9D5/9D6 (METS))   | 2.5                  | 2                | 4.5                | \$506                            | \$101                     |
| N10                                  | Advanced water survival training for aircrew using CBR ensembles                              | 2                    | 2.5              | 4.5                | \$578                            | \$116                     |
| N11                                  | Advanced continuation training for aircrew selected for fixed wing non-ejection seat aircraft | 8                    | 4                | 12                 | \$1,157                          | \$231                     |
| N12                                  | Advanced continuation training for aircrew selected for Helicopters                           | 7                    | 4.5              | 11.5               | \$1,205                          | \$241                     |
| N13                                  | USMC "Non-Aircrew" Personnel Underwater Egress Familiarization/Orientation Course             | 2                    | 2                | 4                  | \$482                            | \$96                      |
| N14                                  | Advanced Underwater Egress and Survival Procedures Course                                     | 2.5                  | 2                | 4.5                | \$506                            | \$101                     |
| R1/RP1                               | Jet Refresher (Ejection Seat Equipped Aircraft)   | 10                   | 4                | 14                 | \$1,253                          | \$251                     |
| R2/RP2                               | Maritime Refresher (Non-Ejection Seat Parachute Equipped Aircraft)                            | 11.5                 | 5                | 16.5               | \$1,518                          | \$304                     |
| R3/RP3                               | Helicopter Refresher (Includes HABD Training)   | 9.5                  | 4                | 13.5               | \$1,229                          | \$246                     |
| R4/RP4                               | Prop Refresher (Pressurized Non-Parachute Equipped Aircraft)                                  | 10.5                 | 4.25             | 14.75              | \$1,326                          | \$265                     |
| NAWSTI                               | Naval Aviation Water Survival Instructor Course   | 20                   | 59               | 79                 | \$12,337                         | \$2,467                   |
| HABDI                                | HABD Instructor Course  | 6                    | 6                | 12                 | \$1,446                          | \$289                     |
| Lifeguard U.S. Navy Lifeguard Course |   | 5                    | 9                | 14                 | \$1,976                          | \$395                     |
|                                      |   |                      |                  |                    |                                  |                           |

\* cost dependent on remedial element trained, contact NASTP Directorate for costs

"Civilian \$\$ contractor costs are the reimbursement fees for all contractors and other federal agencies (e.g., non-DOD Federal Agencies, DOD contractors, etc.)

"Military only \$\$" are the reimbursement fees for both civil service civilians and military members
